Exclusive blockchain deployment - why?

ONE ECOSYSTEM

Since February 2023 One Ecosystem and all our projects are part of the Public Blockchain system of Polygon. This process was a long exciting journey, where over 1 million accounts were migrated during the different phases.

With a strong sense of responsibility and care for each of our members worldwide who are an important and inalienable part of our global network, the management team considered feedback from the community and conducted an in-depth analysis alongside the company and the International Global Council. As a result, the IT team has been diligently working for over three months to ensure the necessary technical capability for implementing blockchain deployment option and an exclusive opportunity has been developed!

On September 1st, 2024, following an official assembly and public vote, the International Global Council unanimously decided to open the blockchain deployment for non-deployed accounts.

This decision grants our members another chance to join Polygon's public blockchain and enjoy all its remarkable benefits.

ONE ECOSYSTEM

Why is it important to deploy your accounts?

Blockchain deployment is your chance to continue growing as a part of our OneEcosystem and all our projects!

- Only deployed accounts can purchase educational modules in ONE Academy.
- Only deployed accounts can use their ONE to shop deals on Dealshaker.
- Only deployed accounts can sell as merchants on the Dealshaker global platform.
- Only deployed accounts can participate in DSP.
- Only deployed accounts can order and purchase the unique ONE VITA products
- Only deployed accounts can continue developing their own network business, grow the network, participate in qualification rewards, and remain in the bonus system.

What happens after you deploy your accounts?

ONE ECOSYSTEM

- What if I have more than 1 account?
- Shall I transfer all the accounts that I hold?
- Which accounts do I have to choose?

WHICH ACCOUNTS DO I HAVE TO DEPLOY?

- Each IMA can choose certain accounts to be deployed. In this case, they must pay a fee for each separate account. IMAs can choose to deploy only important accounts for their network tree.

- We highly recommend you consider your choice carefully because this can suffer you to develop your entire network.

- Bear in mind that after the deployment, transactions between deployed and non-deployed accounts will not be possible. Each IMA must consider the Rookie accounts importance to their network and whether those should be deployed or not.

ONE ECOSYSTEM

HOW ABOUT NEWLY REGISTERED ACCOUNTS?

ONE ECOSYSTEM

All registered accounts (after 18. February 2023) are already part of the public blockchain and do not need to be deployed additionally.

Starting from 18. February 2023, we have implemented a new system that automatically registers all accounts on the Polygon network. This exclusive Blockchain deployment only applies to old accounts created before this date that have not yet deployed through the two phases of the process.

PAYMENT METHODS

ONE ECOSYSTEM

- 100% CASH
- 50% CASH & 50% RESERVE CASH WALLET
- 50% CASH & 50% ONEs

OPTION 1: 100% CASH WALLET

ONE ECOSYSTEM

To cover your fee for transfer with 100% cash, click on the circle before Cash Wallet.

After that, the button Purchase becomes active.

Even though this option might appear as an only one, if you haven't clicked on the circle, the button Pay will be greyed out and you won't be able to finalize the transaction.

OPTION 2:

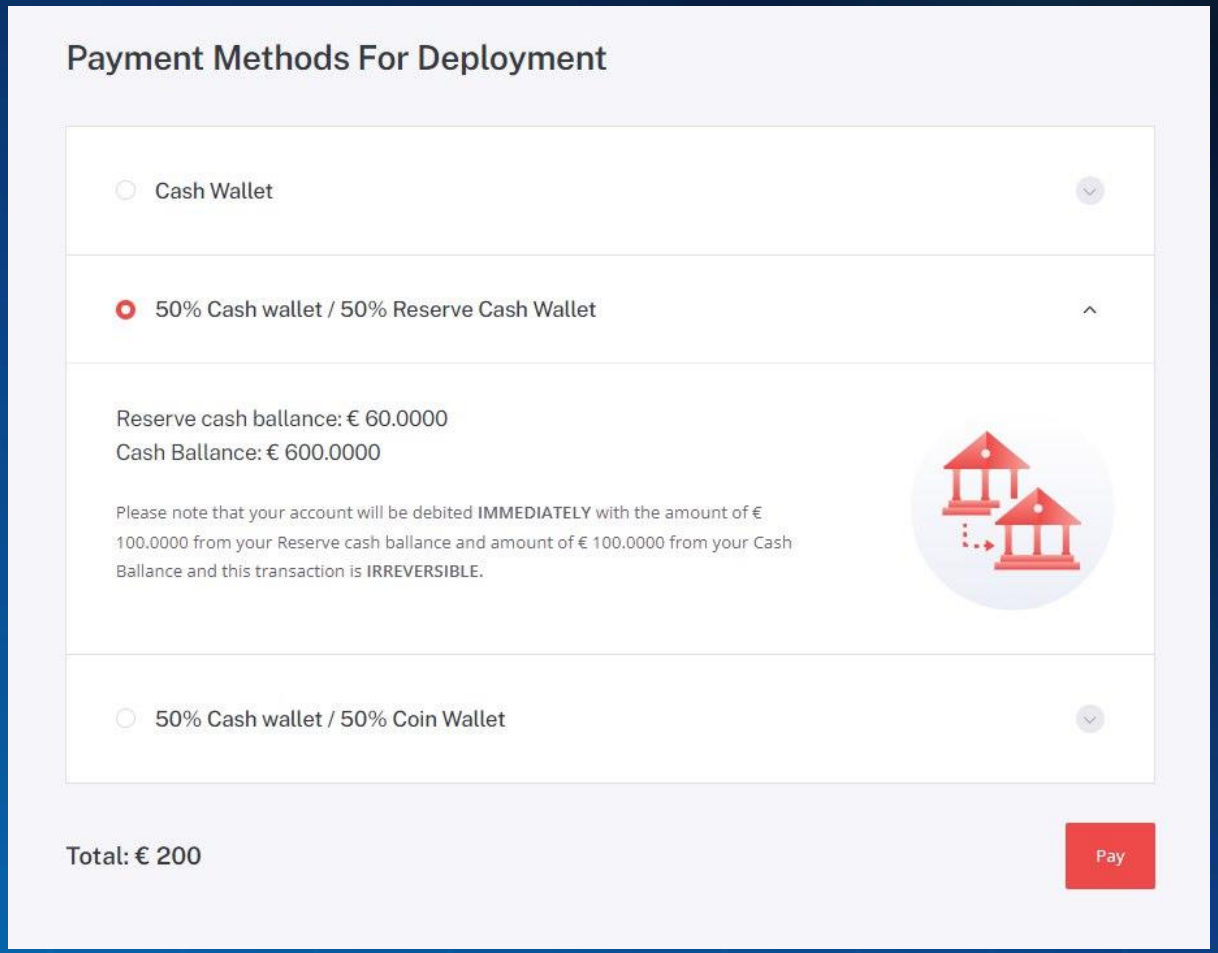

50% CASH &
50% RESERVE CASH

ONE ECOSYSTEM

To cover your fee for transfer with Cash and Reserve Cash wallet, click on the circle in front of 50% Cash / 50% Reserve Cash.

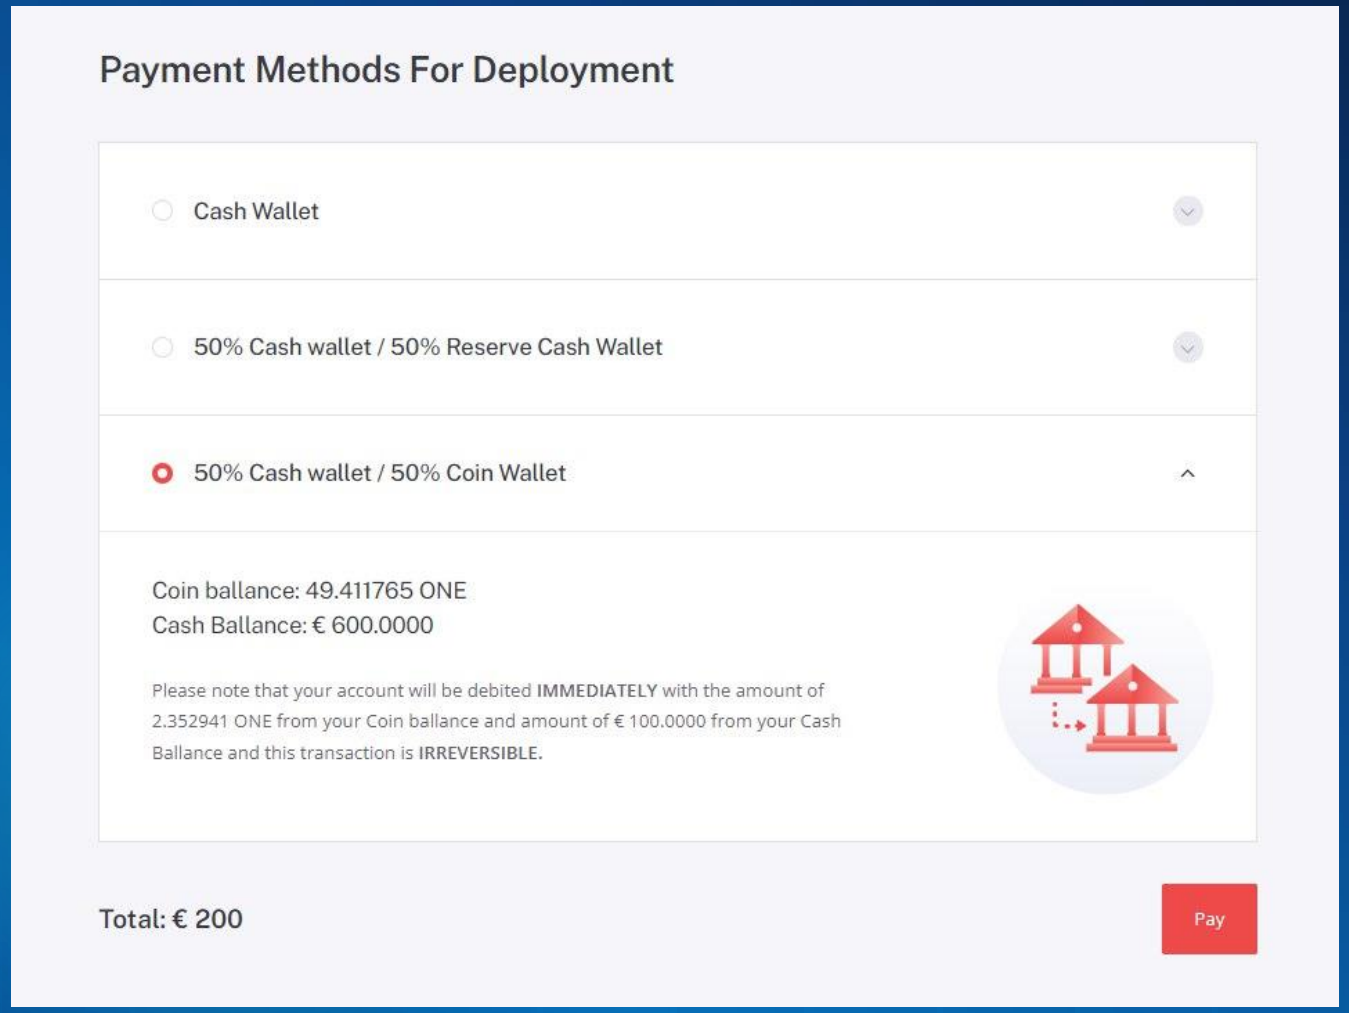

After that, the button Pay becomes active.

The system shows the current balance of both wallets, plus the total amount you will spend if you choose this option for deployment.

OPTION 3: 50% CASH & 50% ONEs

ONE ECOSYSTEM

As Polygon does not accept ONE as a means of payment for the deployment, the Company Management covers 50% of the deployment costs, accepting the equivalent of ONE from each member.

To cover your fee for transfer with this option, click on the circle in front of 50% Cash / 50% Coins.

After that, the button Pay becomes active.
